## Senator Wootton Introduces First Prohibition Bill

Senator John H. Wootton had the honor to introduce the state-wide prohibition bill, drafted by the Betterment Leagues, and which is destined to be the most widely discussed bill that will be introduced this session.

The bill was referred to the committee on Irrigation and Agriculture, probably because it is a dry measure and needs irrigation.

The bill provides for a punishment of a fine and an imprisonment of at least ten days and not more than six months in jail. It is very strict regarding druggists. It contains the nuisance and search and seizure clauses of the present law, and makes it unlawful for even clubs to sell.

The law gives the officers the right to search any person for liquor, and the finding of some is prima facie of guilt.

It seems to be the general opinion that a referendum bill would be unconstitutional, so the prohibition forces will center their fight on securing the passage of the Wootton Bill.

## AMERICAN FORK HIGH SCHOOL NOTES

The High School Poultry club sent over a very nice bunch of fancy poultry, of various breeds, to the Poultry Show at Provo this week. The shipment was accompanied by LeGrande Noyes, president of the club, and Elmer Beck. These young men report that the Provo show is exceptionally good this year, and that the association is having more entries than it can readily find room for. Our Poultry club, however, has by far the finest and largest boys' exhibit in the whole show. The boys are to be congratulated on their progressive work.

## Stock Show For 1915

The stock show committee had its first meeting Tuesday evening, and took up the matter of a stock show for 1915. After thoroughly going over the situation, the members all expressed themselves as heartily in favor of making the show for the year bigger and better than ever before.

A canvass of the city shows an exceptionally large increase in both the number and quality of our live stock. Many of our progressive stockmen have secured new animals, and others are planning on getting some in time for the exhibition. In the dairy line, in particular, this vicinity has stock that would be a credit to any community.

A poultry show will be held with the stock show, and arrangements for this division have been turned over to the boys in the High School Poultry club.

It was also decided to increase the size of the committee, so as to enable it to cover more ground. At present the following are the members: W. H. Chipman, President; Luther Giddings, Secretary; Hans Christensen, Wm. Storrs, S. W. Chipman, Alva Green, George F. Shelley, John Jacklin.

## EVER THINK OF IT THIS WAY?

When you find that your watch is losing a minute a day you hasten to have it regulated.

If you find that your pulse is losing a beat or two a minute, the fact does not worry half as much as does the loss of the second or two by your watch.

The watch must go at once for repair, but your pulse—well, you think that will take care of itself. No matter about that.

The chances are that you don't really know whether your pulse is beating or not, but you will compare your watch with a chronometer at least once a week. But you never compare your pulse with anything why?

Because you don't care as much about your heart as you do about your watch. Your watch costs you perhaps \$50.00, but your heart costs you nothing, and you value it accordingly.

## Gold Ore Found On Yankee Ground

Camp Heretofore Noted For Its Silver Lead Ores May Become Famous As a Gold Camp.

In view of the gold strike made by Ike Wadley on the Old Miller ground and reported in the Pleasant Grove department of our last issue, the following from a Salt Lake paper will be interesting to local people:

Some excellent values are being opened in the old Yankee property in American Fork canyon, according to the latest word received from there. The Green leasing company is opening the ground in two places, in both of which \$40 gold ore has been discovered. On one side of the canyon a new tunnel has been started to prospect the sulphide body of ore which outcrops there. At fifteen feet ore carrying as much as two ounces of gold has been found. The vein is
